

INTERN TESTIMONIALS

"What I liked best about my internship at MVLS was that I wasn't stuck observing someone else do their job – I was given the opportunity to be involved, and what I did mattered. I interacted daily with clients, staff paralegals, staff attorneys, and volunteer attorneys. I was given the responsibility of conducting interviews and maintaining follow-up communication with clients, and I drafted and filed several motions and petitions on their behalf. Each day proved to be an opportunity to learn something new about the law, myself, or others." **Summer 2017 – A.B. – University of Baltimore**

"Working at MVLS over the summer was a great opportunity to apply the knowledge from my first year in law school. I was able to explore different aspects of the law through research and clinics, like tax, bankruptcy, and landlord/tenant matters. On top of that, I was able to help people as I learned. It was a great educational experience to be able to interact with volunteer attorneys and clients and to learn from the amazing staff at MVLS." **Summer 2017 – E.B. – University of Baltimore**

"As a summer intern, I assisted with client intake and case placement. In addition to intake and case placement, I was able to work with a volunteer attorney and assist with opening an estate. I have an interest in family law and estate planning and the practical experience was awesome. I was able to attend clinic sessions with the Pro Bono Resource Center and Just Advice and work with Baltimore City residents. Overall, I learned a great deal and gained useful practical skills." **Summer 2014 – K.H. – University of Maryland**

"I researched tax sale policy in Maryland, assisted in placing cases with volunteer attorneys, and did intake calls. I learned not only a great deal about tax sale policy, but also the way an organization like MVLS operates. What I enjoyed the most about my internship at MVLS was how I could end each day feeling like I made a positive difference." **Summer 2014 – M.H. – University of Maryland**

"MVLS was perfect for me, as it was my first legal internship, and gave me exposure to a variety of civil litigation I ordinarily wouldn't have gotten in one single placement. It also helped that the attorneys were all very friendly and willing to have me with any questions or problems I was having with assigned projects. I received great feedback that has helped me understand how attorneys approach legal issues in their day to day jobs." **Fall 2014 – T.S. – University of Maryland**
